

## Look out for Grip NO OFFICIAL ACTION

Is Here, There, Everywhere. Has Yet Been Taken Regarding the Utterances of General Miles.

Today You are Well; Tomorrow You May be Ill; Next Day Death May Stare You in the Face. It is a Dangerous Disease. Prompt Attention is Imperative.

The great danger from LaGrippe is not so much in the severity of the acute attack, for comparatively few deaths occur from simple grip, but in the terrible after effects which so frequently follow it. When the nerves have been prostrated by the busy little grip germs and the whole system is in a relaxed and congested condition, it requires but little neglect or indiscretion to bring on bronchitis, pneumonia, or quick consumption. Fortify the system with Dr. Miles' Nerve and Grip will pass you by. But if you have it, or are suffering from its after effects, there is nothing that will help you so quickly and so surely back to health and strength as Dr. Miles' Nerve and Tonic.

Mr. H. G. Cordes, 44 Market St., Charleston, S. C., writes: "The after effects of the grip rendered me a weak nervous, prostrated invalid, and I became seriously alarmed. I tried numerous tonics, compounds and other remedies for the upbuilding of a shattered nervous system, but without benefit, until a friend advised Dr. Miles' Nerve and Tonic with the result that today I am a new being, full of vigor and strength, entirely restored to health and happiness by these wonderful remedies. I can heartily recommend them to everyone suffering general debility from any cause, knowing full well they will find in them new life, new hope, new health, and strength."

All druggists are authorized to sell Dr. Miles' Nerve and Tonic on a guarantee that first bottle benefits or money refunded. Be sure you get Dr. Miles' Remedies. Take nothing else. Write us about your troubles and ailments and we will give you the honest advice of a trained specialist absolutely free. Book on heart and nerves sent free.

Chief Justice Chambers' Report.

Washington, Feb. 3.—The state department has been informed that Chief Justice Chambers of Samoa has made a long report upon the circumstances attending the recent uprising at Apia. Will Vote Today.

Washington, Feb. 3.—Senator Davis, in charge of the treaty, expressed the opinion last night that a vote would be secured today on the resolutions pending in the senate declaratory of the country's future attitude toward the Philippines in case of the ratification of the treaty. Last Relic of Discriminating Laws.

Washington, Feb. 3.—Representative Gaines of Tennessee has introduced a bill to repeal the law which prevents an ex-Confederate soldier from sitting on a federal grand or petit jury. This is the last relic of the laws discriminating against ex-Confederates. It slipped into the revision of the law of 1862, although it had been repealed, and works now considerable hardship in the south.

Washington, Feb. 3.—Representative Tawney (Minn.) has introduced a resolution providing that on Feb. 15 next and on that date thereafter, the United States flag on all government buildings throughout the United States be displayed at half mast in commemoration of the destruction of the battleship Maine and the loss of 265 American lives in the harbor of Havana.

M'KINLEY PLEASED

With the Outcome of Robert Porter's Mission.

Washington, Feb. 3.—The administration officials were very much pleased at the outcome of Robert Porter's conference with General Maximo Gomez, the Cuban leader. Advice from Mr. Porter to the officials here were received last night. They were brief, but left no doubt as to the successful performance of the mission with which he had been entrusted. They showed that the Cuban leader consented to the propositions made by Mr. Porter in behalf of the president and would to the best of his ability assist this government in carrying out its programme for the improvement of the condition of the people of the island. The opinion among the officials here all along has been that the disbandment of the Cuban army is a prerequisite to the successful initiation of any policy for the reconstruction of the island and the fact that Gomez has consented to do this is regarded as of the highest importance. The official details of Mr. Porter's conference with the Cuban general are awaited with no little interest.

## GEN. GOMEZ GIVES UP

Agrees With Porter to the Disbandment of the Cuban Army.

## HE WILL ASSIST BROOKE

In Disbursing the \$3,000,000 Appropriated for the Purpose of Paying the Insurgent Troops—The Pay Not to Be Regarded as Wages, but as a Relief Fund.

Havana, Feb. 3.—Dispatches from Remedios, Santa Clara province, yesterday, under date of Feb. 1, state that General Maximo Gomez, commander-in-chief of the Cuban army, has acquiesced in the representations of Mr. Porter, President McKinley's representative, and has consented to the disbandment of his army. The dispatch continues: General Gomez was seen by Senor Quesada this afternoon and after an hour's conference Mr. Porter, accompanied by Senor Quesada, Captain Campbell and Lieutenant Hanna, was received by General Gomez.

The old general wore no insignia of his rank. He was dressed in a linen coat and dark trousers and had a silk handkerchief over his coat collar. He also wore a black tie, and showed a heavy silver watch and chain with a silver cross attached to it.

The Cuban commander was cordial in greeting Mr. Porter and opened the interview by referring to the change for the better which had taken place in Cuba since he was last here in September. He also laid stress on the fact that some people were asking where was Cuba's promised liberty.

"The answer to this," said Mr. Porter "is that Cuba has now commercial and industrial liberty and that President McKinley has directed me, in framing the Cuban tariff, to make no discriminations in favor of the United States in the manner that Spain favored herself. Cuba is free today to buy in the cheapest markets. People are returning to the pursuits of peace and our military government will give way to the civil government as fast as possible."

The first problem, Mr. Porter then pointed out, was the disbandment of the Cuban army and the return of the Cuban soldiers to work. This was the specific mission which had brought Mr. Porter to Remedios and in which President McKinley expected General Gomez's aid.

The Cuban commander-in-chief replied that he was ready and was willing to give the aid required, but asked how he could do so.

To this Mr. Porter replied that President McKinley would be glad to have him go to Havana and co-operate with General Brooke in disbanding the Cubans and in paying over the \$3,000,000 appropriated for that purpose.

General Gomez said the amount was too small, but that was not his fault, and he would make it go as far as possible, while likening it to the miracle of the loaves and fishes.

"No man in history," said Mr. Porter, "has done so much with so small resources as you have done. Hence, your co-operation with General Brooke will bring good results."

General Gomez specially requested that the money for which Mr. Porter had orders in his pocket should be paid over to General Brooke and not to himself, as he did not want the personal responsibility of keeping it.

The Cuban general then assured Captain Campbell of his good feeling toward General Brooke, and the formal compact was presented to Gomez by Mr. Porter, and was assented to by General Gomez.

Mr. Porter laid special stress on the fact that the \$3,000,000 was not to be regarded as wages due for services rendered, but as a relief fund from the United States to expedite the disbandment of the army and to further the aims of reconstruction. This article of the compact was the most delicate point under consideration, as the question of the recognition of the Cuban army as a military body and, tacitly, of the Cuban revolutionary government, was involved. General Gomez acquiesced in this promise more readily than might have been expected, in view of his reported hostility to the United States. Each man in the Cuban army will receive about \$100.

## BISHOP DOANE

His Views on the Acquisition of Our New Territory.

New York, Feb. 3.—The Churchman in its issue tomorrow will contain an article by Rt. Rev. William Croswell Doane, bishop of Albany, on "imperialism." The bishop opens with a repudiation of the word "imperialism" as in any sense a correct term to be applied to any policy at present suggested for the American government. He says that whatever enlargement may come from the present position is not active and intentional land grabbing, but the passive acceptance of the care of certain people and certain races, thrust upon us by the unexpected and unintended outcome of the war.

Discussing the present duty of the Christian American citizen, the bishop says that it is quietness and confidence. Making haste to give up the Philippines to nobody knows what or whom and to leave Cuba and Porto Rico to take care of themselves, or making haste to annex Cuba, to admit Porto Rico to citizenship and to make the Philippines part of the United States, are alike condemned by the bishop as suicidal and senseless. After some rather severe criticisms of the course of the American government toward the negroes and the Indians and a eulogy of English government of Egypt and India, the bishop says that not by shirking, but accepting the responsibilities with all their difficulties and dangers, are we to rise to the ability to discharge them.

Bishop Doane says that precedent seems to indicate that both by the inherent national right of sovereignty and under the existing constitution we can provide for the government of the people whom we have rescued from tyrannous cruelty, but that if this supposition shall be found untrue, "then we must remember that in the emergency national life and duty are more important than the letter of a document and that the constitution not being, as some people seem to think it, a close and final revelation of God, can be amended."

Fears For the Princess Edward.

San Francisco, Feb. 3.—There is little hope for the ship Princess Edward that left Baltimore nearly nine months ago for Honolulu to load sugar. When the Capt. left Honolulu the Princess Edward had not reported, and the friends of Captain Pande and his crew were commencing to feel the greatest uneasiness. The ship was considered a bad risk for insurance men some weeks ago, and when the news that she failed to report was brought here yesterday, all hope for her safety was abandoned. The Princess Edward, if she has foundered, has carried down with her a crew of 27 men all told.

Groschnuhl Case.

London, Feb. 3.—The Berlin correspondent of The Daily News says: "The latest Samoan news has been received here with great calmness and with full confidence that all three protecting powers are resolved not to make Samoa a bone of contention. Nevertheless, it is contended, that Herr Rose, the German consul at Apia, was perfectly within his rights in taking the attitude of protest he did regarding the arrest of Herr Groschnuhl, since the Germans there are under the jurisdiction of the German consul, and Mr. Chambers, the chief justice, had no right to fine and imprison Groschnuhl."

## REDUCING MILEAGE

A Bill Making Legislators' Traveling Allowance 3 Cents a Mile Passed.

## MRS. MORTON'S PENSION

Senate Passes the House Bill Giving Her \$100 Per Month During the Remainder of Her Life—Senator Winfield's Bill as to Appointment of Metropolitan Police Boards.

Indianapolis, Feb. 3.—The house passed the bill yesterday reducing the mileage allowance of legislators from 30 cents per mile traveled to the actual cost—3 cents per mile—although this is 3 cents more than it costs the legislator. Twenty-seven members thought the present mileage allowance too good a thing to be thrown away and voted against the bill. Sixty-one voted for the bill, and it carried.

The senate passed the house bill granting the widow of ex-Governor Morton a pension of \$100 per month for the rest of her life. The senate bill regulating the common school system and the election of county school superintendents was so amended as to allow women to hold the office of county superintendent.

Among the bills passed by the house were: The bill taking Benton county from the Thirtieth judicial circuit and adding it to the Twenty-first and the bill amending the law relating to the superior courts of Lake, Porter and Laporte counties.

The bill providing for a high school education for every county scholar, either by erecting a high school in each township or by the township paying the scholar's tuition elsewhere, failed.

The bill abolishing the three days of grace and providing that it is not necessary for a note to be payable at a bank to be negotiable was voted down.

The following senate bills were passed by the house: The one by Senator New giving the court which sends a case out of a county for trial the right to fix the fee of the attorneys; one by Senator Hugg giving ex-soldiers of the civil and Spanish wars free licenses to peddle goods; one by Senator Hogue extending the terms of the judges of the appellate court, and one accepting authority over the ground of the Marion Soldier's home (thus giving the inmates the right to vote in local and state matters.). The two bills last mentioned were passed by a strictly party vote, the Democrats opposing both measures.

Among the bills introduced in the house was one for a primary election law by Mr. Glossbrenner (Rep.).

Senator Winfield (Dem.) introduced a bill to take from the governor the power to appoint the metropolitan boards of police commissioners in the various cities of the state and distribute the appointive power by giving the mayor the right to appoint one commissioner, the council one and the circuit judge one, the council fixing their salary.

The farmers of the country have been the largest beneficiaries of the marvelous export trade of the year just ended. More than \$850,000,000 worth of the year's exports were the products of the farm.

The Lincoln League clubs of Indiana will meet in annual session at Fort Wayne, February 18. Being the most important republican gathering in the state during the year there should be a large attendance.

A comparison of the non-state schools with the state schools is decidedly favorable to the former in respect of administrative and operating expenses. Thus eight nonstate schools, including Butler, Earlham, Franklin, De Pauw, Hanover, Moore's Hill, Union Christian and Wabash colleges have a total of 131 teachers, 2,178 students, and were operated in 1897 at an aggregate cost of \$154,572 an average of \$70.97 per capita expense to students. Three state institutions, Indiana University, Purdue and the State Normal, had a total of 168 teachers, 2,506 students and were operated at an aggregate cost of \$325,273, an average per capita expense to students of \$129.80. The great difference in favor of the institutions which do not receive state aid shows that they must be much more economically managed. Extravagance does not necessarily argue efficiency, and educational institutions which receive state aid should be held to the same accountability in business methods as are other state institutions. — Indianapolis Journal.

REPRESENTATIVE COUSINS, OF IOWA, in a speech in favor of the Hull army bill, replied to those who have expressed so much fear of the necessary increase in the regular army. He said: "I have not lived long enough to learn of anything in the history of the exploits of American soldiers or of their service, to justify that suspicion which is cast upon the institution known as the regular army of the U. S., by the imputation that it could ever be used as a menace to the liberties of American citizenship. Does the history of valor and glory in the Revolution prompt the gentlemen of the minority and of the opposition to warn America against American soldiery? Does the record of the regulars, led by Gen. Jackson, at New Orleans, fill the hearts of the gentlemen with fear or apprehension for the safety of our citizens? Does Chepultepec send warning even into modern Washington? Did there ever issue from the lips, now closed in everlasting love and fame in that silent mausoleum by the Hudson, any word of menace to a future citizen, any thought save peace, any oracle save liberty and union? God spare a grateful country and an admiring world from any doubt about the matchless magnanimity of Appomattox. In all the years of toil and strife and victory that make the history of our republic great, the regular army has been its shield and buckler."

## OUR NIGHTINGALES

Entertained a Large and Appreciative Crowd Last Night.

The band concert last night was in every way creditable to the Nightingale Band. Each number on the program was well rendered and heartily applauded by the large audience. The band is composed of good musicians, seventeen in number, who have been well trained by Prof. Fred N. Johnson, who is a capital director.

The solos of Mrs. Daisy K. Wade were well sung and being recalled twice showed that she is a great favorite with a Seymour audience.

Master Walter Voss sang "Mr. Johnson don't get gay" in a manner that shows remarkable talent for a boy of six years. His "make up" was fine and his "cake walk act" brought down the house.

The concert was a success and the band boys deserve the congratulations of all. We are proud of the Nightingale Band.

### Legislative Comment.

Senator Patten's bill authorizing cities to purchase water works previously built by private firms or corporations has been advanced to second reading. Senator Shea yesterday asked that the provisions of the bill be extended to all incorporated towns and restricted to cities of less than 25,000 population which was agreed to.

Senator Inman's bill to limit the issue of bonds for the construction of gravel roads to 4 per cent of the total assessed taxable valuation of property of the township where such road is located has passed both the senate and the house. This will prevent the building of any new roads in some of the townships of Jackson county for they have already reached that limit.

With the time allotted for the regular session half gone, it is pretty clear that the legislature will not do certain things. A partial summary of things it will not do might be made up as follows:

It will not authorize the teaching of the science of agriculture in the public schools.

It will not require barbers to be licensed.

It will not authorize the building of a home for the governor.

It will not pass a bill reducing railroad fares to two cents a mile.

It will not take the appointment of police commissioners for cities of certain population out of the hands of the governor.

It will not establish a state board of embalmers.

It will not repeal the law of two years ago, requiring farmers to cut weeds along the public highways.

It will not authorize building and loan associations to go into the business of trust companies.

It will not require that telegraph operators be licensed.

It will not pass a bill making counties liable for a penalty of \$5,000, or any other sum, in case of a lynching.

It will not prohibit "free lunches" in saloons. — Indianapolis News.

## THEY LIKE SEYMOUR.

Falls City Elks Highly Pleased With What They Saw Here.

The New Albany Tribune of yesterday has the following to say of the visit of the Elks to Seymour when the new lodge was instituted Wednesday.

"The members of the New Albany, Jeffersonville and Louisville lodges of Elks returned this morning from their trip to Seymour where a new lodge was instituted yesterday and mildly expressing it there was a hot time in the old town last night. It was the unanimous opinion of every visiting Elk that a more clever, whole-souled set of gentlemen than those composing Seymour lodge of Elks were never met.

Nothing was too good for the visitors and their money was counterfeited in Seymour. All expenses of the affair including hotel bills were borne by the new Elks who absolutely refused to allow the visitors to spend a cent. The Elks had possession of the town from the moment of their arrival until the train left this morning.

"During the day and evening, when not occupied with business in the lodge room, the visitors were entertained at the separate bachelor apartments of J. Hirsch Peters, J. F. Shiel and Fred Abel. Mr. Peters is a former New Albany and at one time owned the street railway system in this city.

"At 10:30 o'clock last night a banquet was served at the New Lynn Hotel and the festivities did not close until an early hour this morning. Numerous toasts were given during the feast. The visiting delegations left for home at 4:30 o'clock this morning.

"The visitors were most favorably impressed with Seymour. It has brick-paved streets, handsome store rooms and first class hotels. The merchants are progressive and the city has an air of prosperity."

### A Tale of the Sea.

Two American captains were recently relating their experiences on different voyages. One of them told the following story: "About 1 p. m. on March 2 my ship was proceeding under full sail when a cloud about the size of a man's hand was observed on the horizon. It came on, and as it neared the ship we discovered that it was composed of locusts. They settled on the sails, and you couldn't see a bit of canvas for them. When they flew away, there was not a stitch of canvas left on the yards." "Ah," said the other captain, "I can quite believe that, for at about 8:30 p. m. on March 2 my vessel was proceeding under full sail when we observed a small cloud on the horizon. As it approached the ship we discovered that it was a cloud of locusts, and as they passed our vessel we saw that they were carrying a pair of No. 1 canvas trousers on." — Brazil Nut.

Made a New Man of Him. BRYAN, Ohio, Jan. 13, 1897.

Gentlemen:—For years I had been suffering from indigestion. Had a poor appetite and could not eat anything containing grease and had constantly had a worn out feeling. After using three 50¢ bottles of Dr. Caldwell's Syrup Pepsin I am now able to eat anything my appetite craves and can say it has made a new man of me.

## ROYAL HUNT TOMFOOLERY.

What It Costs to Maintain the Famous Sport.

A year or two ago, says the editor of London Truth, I took up the matter of the royal hounds, for I have always thought that anything with less of the redeeming feature of sport than to cart a tame deer to some spot, turn it out, hunt it with dogs, and, having hunted it down, put it back in its cart for another day's "sport" cannot well be conceived. When I was engaged in this crusade, I received many letters assuring me that the deer like being pursued by dogs, although how the animals conveyed their singular idea of pleasure to the writers of the letters was not explained to me. Now that the bishops have joined the crusade, we may hope that the cruel tomfoolery of this royal hunt will soon cease.

The country pays the costs. The salary of the master of the hounds (£1,200 per annum) is always enjoyed by a nobleman, the occupant of the post changing with a change of ministers. Besides this there are salaries to huntsmen, whips and others, the purchase and keep of horses and hounds, etc. I should suppose that the total outlay must be about £5,000 per annum. This is defrayed, it is true, from the civil list. But when the amount needed to maintain the sovereign was investigated in order to arrive at the total necessary, this expenditure was included in the estimate.

It is suggested by the bishops that the quarry should cease to be deer and should henceforward be a red herring. But the idea, as an attribute of majesty, of the sovereign keeping a lot of dogs to run after a red herring is childish.

Legislatures in different States are from time to time urged to tinker with passenger tariffs on railways and enact a law compelling a general charge of two cents per mile. The current rate is three cents, but the average falls below that owing to concessions granted for special occasions. Persons who appreciate the convenience and comforts provided by the railways will not consider a three-cent fare exorbitant. The present charge for a twenty mile ride on a railway will not pay for horse hire for such a trip, to say nothing of the time required for an overland journey and the discomforts of muddy roads and inclement weather.

# DR. MILES' TREATMENT

FOR

## A Contribution to LaGrippe Sufferers.

So severe are the symptoms which accompany attacks of the grip, and so dangerous and far reaching are its effects upon the vitality of the system, that it is not safe for the unfortunate sufferer from this dread disease to neglect the proper care and treatment. Neither is it wise to squander valuable time in experimenting with new and untried remedies. Long before La Grippe made its appearance for the first time the

Dr. Miles' Restorative Remedies were known and recognized by the people as valuable medicines. They were designed to meet and overcome just such conditions and just such troubles as accompany and follow attacks of grip. So when the pestilence first swept over the land nine years ago, carrying sickness and death to so many sufferers, there were thousands upon thousands who were rescued from grip's terrible grasp and restored to health and happiness through the virtue of Dr. Miles' Remedies. As year after year has passed by other thousands who have been suffering from the terrible after effects of the grip have found in these remedies their only source of relief and restoration to health.

The grip germs always attack the nerves and weaken the whole system by exhausting

the vitality from the nerve centers, and the one great remedy which seldom fails to overcome this action is Dr. Miles' Nerve. It soothes and quiets the irritated nerves; it builds up the vitality and replenishes the wasting nerve force as fast as disease tears it down. It puts new life into every muscle, organ and tissue, and so strengthens the system that it can throw off the deadly grip germs and resist further attacks of the disease.

The congestion of the small blood vessels and capillaries which naturally follow the loss of nerve force in the smaller nerve centers, resulting in aches and pains throughout the body, in fullness of the head, in irritation of the mucous membranes and frequently in fever, is best overcome by the use of the Dr. Miles' Anti-Pain Pills. These pills stop the irritation and the aches and remove the fever without depressing the heart's action, deranging the stomach or otherwise interfering with the healthy action of the body.

It is very important in all cases of La Grippe that the bowels should be quickly cleared and kept naturally open, that the waste products of disease may be quickly got rid of, and for this purpose there is no remedy equal to Dr. Miles' Nerve and Liver Pills. These wonderful little pills owe their re-

markable healing and restorative properties to the fact that they act directly upon the thousands of little nerves located in the abdominal region, thus enabling them to perform their duties regularly and naturally. They do not pain nor gripe.

The three remedies then, which go to make up the best grip treatment in the world are Dr. Miles' Restorative Nerve, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills. In order that every sufferer from this dread disease or its terrible after effects may have an opportunity of testing for themselves the virtues of this great treatment, a sample of each of these remedies will be sent upon request to any address, absolutely free of cost. Remember that none of the Dr. Miles' Remedies contain opium, morphine, chloral, cocaine or other dangerous drugs, which only stupefy the senses without removing the cause of the trouble.

To Obtain Treatment Free. All that is necessary to obtain this free trial treatment and test for yourself is to send your name and address on a postal card, mentioning that you saw this offer in this paper, requesting the samples, and they will be mailed to you at once. ## GAS FROM A BASE BURNER.

W. H. Wentz's Family Narrowly Escape Asphyxiation.

The family of W. H. Wentz had a narrow escape from asphyxiation Thursday morning. About 4 o'clock in the morning Mr. and Mrs. Wentz heard their fourteen-year-old boy get up and a moment later faintly call to his father.

They got up immediately and struck a light and found the boy on the floor in semi-conscious state. They worked with him and in a little while he was able to speak. Then they found that their little eleven-year-old girl and their six-year-old boy afflicted in a similar manner. They applied restoratives and brought them around all right but all were very sick during the day.

Mr. Wentz made an examination and found that gas was escaping from the hard coal base burner, and that this caused the trouble. The pipe had become slightly disconnected between two joints thus breaking the draft and letting a part of the gas generated in the stove escape in the room.

It was a narrow escape and should serve as a caution to others who use such stoves.

## An Imposition.

It is an imposition on the public that manufacturers should be allowed to put alum into baking powder without saying so on the label.

The so-called "cheap" baking powders are made of alum. They have to be or they could not be offered at the price. But they are not sold as alum powders. If they were housekeepers would not buy them at all.

Cleveland's baking powder is made of pure cream of tartar. All the ingredients are published on the label.

## MISTER G. HOG.

If An Early Riser Saw His Shadow and Returned to His Hole.

The mythical terrestrial porker, otherwise ground-hog, which according to infallible legend, must have shown himself to early risers yesterday, probably had a hard time determining just what to do. The sun was slyly peeping through the cracks in the clouds, but possibly not bright enough to badly frighten his porcine ribs with the spectacle of his silhouette. The coming weather is therefore uncertain.

The superstition, it is said, originated 100 years ago, among the Pennsylvania Dutch, but the connection between the ground hog and the middle of winter is not explained. If the sun is shining clearly on Feb. 2—the date fixed by numerous legislative resolutions—he is frightened by his shadow when he ventures forth, and returns to his hibernating place for another six weeks' nap, knowing that the weather will not be warm any sooner. If it is hazy and no shadows appear to frighten him, he disappears into the woods, and good weather is presumed to follow shortly.—Indianapolis Sun.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

The Indiana State Legislature,

Is in session passing laws that affect your country's interests. The present session of Congress will be one of the most important, if not THE most important, in the history of the country. The whole world is watching it.
